

DEAR FDA,

I WAS extremely disgusted when I read this Add. Each year I become more and more dissatisfied with our government Agencies. In our present time I can not believe the cruelty inflicted upon Gods living creatures, creatures that have blood running thru their veins just as you and I do. It is unimaginable anyone purposely starving these animals. There must be kinder ways to produce larger egg quantities. I can not see how this is to benefit the consumers, but believe it is the greed of the FDA and like that will benefit. In my part I plan to discontinue buying eggs from any supermarkets, only buying from local farmers. I also will make everyone I come in contact with (including putting this add up in local supermarkets) aware of this cruelty.

Yours Truly

Paula Joe

Dear FDA,

Forced molting of hens used in egg production is cruel to the birds and increases the spread of Salmonella enteritidis infection. Please grant the petition, filed under docket #98P-0203/CP, that would eliminate this practice.

Signed Pamela Yee
